1 Defendants' Motions *in Limine* Nos. 9 and 15 should be denied. Defendants were  
 2 put on notice that Sharp<sup>1</sup> was pursuing a claim related to illegal information exchanges, not just  
 3 *per se* price fixing, by the opening complaint filed more than two years ago. Sharp set forth the  
 4 detailed factual basis for its rule-of-reason theory related to information exchanges in  
 5 interrogatory answers and expert reports in early 2014, before defendants took any fact or expert  
 6 depositions. Defendants had the opportunity to take, and actually took, deposition discovery on  
 7 Sharp's rule-of-reason theory and then responded to the merits of the theory in their own expert  
 8 report. Defendants also pleaded affirmative defenses specifically addressing rule-of-reason  
 9 allegations. In short, defendants' claim that they did not have notice of Sharp's rule-of-reason  
 10 theory or the opportunity to conduct discovery on it is demonstrably false.

## 12                   **FACTUAL BACKGROUND**

13                   **Sharp's Initial Complaint.** Sharp's rule-of-reason theory depends on allegations  
 14 that defendants injured Sharp by engaging in information exchanges that had an anticompetitive  
 15 effect of raising prices in a relevant geographic and product market. Sharp's first complaint  
 16 alleged such injury caused by both illegal price fixing and illegal information exchanges. The  
 17 first sentence of the first allegation of the first complaint (and of Sharp's subsequent complaints),  
 18 filed in March 2013, alleges as follows: "Sharp brings this action to recover damages on account  
 19 of the antitrust injuries it incurred as a result of a long-running conspiracy by suppliers of  
 20 cathode ray tubes ("CRTs") to coordinate and fix the price of CRTs **and exchange detailed**  
 21 **competitive information.**" Sharp Compl. (Case No. 13-cv-1173, Dkt. No. 1) ¶ 1 (emphasis  
 22 added). This stood in stark contrast to the conspiracies as described by other plaintiffs. *See, e.g.,*  
 23 Costco Compl. (Case No. 11-cv-6397, Dkt. No. 1) ¶ 1 ("Defendants and their co-conspirators  
 24 formed an international cartel that conducted a conspiracy [between certain dates] for the  
 25

---

26                   <sup>1</sup> As used in this brief, "Sharp" refers to plaintiffs Sharp Electronics Corporation and Sharp  
 27 Electronics Manufacturing Company of America, Inc.

purpose and to the effect of raising or maintaining prices and reducing capacity and output for cathode ray tubes.”); Dell Compl. (Case No. 13-cv-141, W.D. Tex., Dkt. No. 1) ¶ 1 (“Defendants and their co-conspirators participated in a price-fixing conspiracy [on certain dates].”); Target/Sears/KMart Compl. (Case No. 11-cv-5514, Dkt. No. 1) ¶ 1 (“The purpose and effect of this conspiracy was to fix, raise, stabilize and maintain prices for cathode ray tubes.”); Best Buy Compl. (Case No. 11-cv-5513, Dkt. No. 1) ¶ 1 (same).

Sharp further alleged in that complaint, and in all subsequent complaints, that “[w]ith respect to CRTs, Defendants or their agents agreed, *inter alia*, to . . . exchange pertinent information on, *inter alia*, shipments, prices, production, and customer demand . . . .” Sharp Compl. ¶ 6. As to product market, Sharp made clear in its initial complaint that CRTs were the dominant technology for displays during the relevant period, that they are separated into CPTs and CDTs, and that CPTs and CDTs are functionally different and used in different applications. Sharp Compl. ¶¶ 3, 27, 29, 110, 197. Sharp’s complaint also made clear that it only bought CRTs for use in televisions (CPTs) and did so only in the United States. *See id.*; *see also id.* ¶ 169 (referring to “North American CRT market”). Sharp also alleged that defendants and their co-conspirators dominated the CRT market and that their anticompetitive conduct raised the prices that both Sharp and other customers in the United States paid – demonstrating defendants’ market power and that they harmed competition. Sharp Compl. ¶¶ 27, 29, 104, 237; *see also Fed. Trade Comm’n v. Ind. Fed’n of Dentists*, 476 U.S. 447, 460-61 (1986).

**Sharp’s First Amended Complaint.** In October 2013, Sharp filed a First Amended Complaint against defendants to more specifically allege Thomson’s participation in the conspiracy. Sharp’s First Amended Complaint contained the same allegations regarding the information exchange conspiracy as in its initial complaint, and added yet another allegation relating to the North American market, pertaining to Thomson:

- 1      • “The purpose of these meetings and other communications between Thomson and  
 2      the Defendants and co-conspirators was to raise and ***stabilize the prices and set***  
 3      ***supply levels of CRTs sold by Thomson and its competitors in North America,***  
 4      including the United States. Documents reflect that these meetings among  
 5      competitors did not occur in the context of a customer-supplier relationship.  
 6      Thomson also discussed with competitors CRT prices, production, revenues,  
 7      volumes, demand, inventories, estimated sales, plant shutdowns, customer  
 8      allocation, and new product development, ***including for North American CRTs.”***  
 9      Sharp First Am. Compl. (MDL Dkt. No. 2030) ¶ 196 (emphasis added).

10     **Sharp’s Interrogatory Responses.** Also, in May 2013, Sharp obtained access to  
 11     the database of documents produced by the defendants and began to diligently review the  
 12     evidence in the case. In June 2013, defendants served an interrogatory on Sharp seeking the  
 13     factual basis for its allegations that defendants conspired to fix or stabilize the price at which  
 14     CRTs were sold. A year ago, in February 2014, Sharp served supplementary interrogatory  
 15     responses on every defendant in the case stating that defendants:  
 16

17        conspired . . . to fix, raise, maintain and stabilize the price at which CRTs  
 18        were sold in the United States, **constituting a per se violation of antitrust**  
 19        **law, and/or** to exchange competitively sensitive information which caused  
 20        prices for CRTs sold in the United States to be at anticompetitive levels,  
 21        constituting a violation of antitrust law **under a rule of reason analysis.**<sup>2</sup>

22     Sharp also set forth its factual contentions regarding the relevant product market for the rule-of-  
 23     reason violation. As to product market, it explained:

24        Sharp states that **the relevant product market in this case is CPTs.**  
 25        During the Relevant Period, there was no economically viable functional  
 26        substitute for CPTs. CDTs and CPTs are not functional substitutes for one  
 27        another because, among other things, CPTs are designed to provide a  
 28        bright image while CDTs are designed to provide a high-resolution image.  
 29        Television manufacturers do not use CDTs instead of CPTs when building  
 30        a television. Other technologies used in televisions, like liquid crystal  
 31        displays and plasma display panels, were not economic substitutes for  
 32        television manufacturers who purchased CPTs, because a manufacturer  
 33        designing a CPT television cannot substitute a LCD or PDP without

---

26     <sup>2</sup> Benson Decl. Ex. 1, Sharp’s First Supplemental Resps. and Objections to Defs. Hitachi  
 27     Electronic Devices (USA), Inc., and Samsung SDI America, Inc.’s First Set of Interrogs. at 15,  
 28     Feb. 26, 2014 (emphasis added).

1 redesigning the television. During the Relevant Period, LCD and PDP  
 2 televisions remained significantly more expensive than CPT televisions.<sup>3</sup>  
 3

4 Sharp additionally set forth the factual basis regarding the geographic market for the rule-of-  
 5 reason violation:

6 The relevant geographic market is at least North America. During the  
 7 Relevant Period (as defined in Sharp's First Amended Complaint),  
 8 Defendants and their Co-Conspirators collectively controlled a vast  
 9 majority of the market for CPTs, both globally and in North America.  
 10 Transportation and other costs of moving CPTs between countries in  
 11 North America were such that CPTs were regularly shipped in significant  
 12 volumes from Mexico to the United States. CPTs were also commonly  
 13 shipped from South American and Asia to the United States and other  
 14 countries around the world.<sup>4</sup>

15 At the time Sharp provided this detailed description of its rule-of-reason theory,  
 16 defendants had taken no depositions – *zero* – of Sharp 30(b)(6), fact, or expert witnesses. So  
 17 defendants literally took every deposition in the case related to Sharp with a complete and full  
 18 understanding that Sharp's Sherman Act Section 1 claim was asserting a rule-of-reason theory,  
 19 and the factual basis for each of the components supporting a rule-of-reason violation. At that  
 20 point, over six months remained in the discovery period. Defendants thereafter propounded 40  
 21 sets of discovery requests, and took six depositions of witnesses who testified for or on behalf of  
 22 Sharp, including two corporate representatives, one fact witness, and two experts.<sup>5</sup>

23 **Defendants' Answers to Sharp's First Amended Complaint.** Weeks after  
 24 Sharp served its supplemental interrogatory responses in February 2014, the court denied  
 25 motions to dismiss Sharp's First Amended Complaint in March 2014. (MDL Dkt. Nos. 2433,  
 26 2435, 2438, 2440, 2442.) Thereafter, the defendants answered Sharp's First Amended  
 27 Complaint. Notably, *defendants asserted affirmative defenses relevant only to a rule-of-reason*  
*theory*. For instance, in their March 26, 2014 Answer to Sharp's First Amended Complaint, both

---

<sup>3</sup> *Id.* at 15-16 (emphasis added).

<sup>4</sup> *Id.* at 16 (emphasis added).

<sup>5</sup> Benson Decl. ¶¶ 4-5.

KPNV and Philips Electronics North America Corporation (PENAC) titled their Eighth Affirmative Defense “Rule of Reason,” arguing that Sharp’s claims are barred in whole or part because the alleged practices “were adopted in furtherance of legitimate business interests of [KPNV/PENAC] and do not unreasonable [sic] restrain competition.”<sup>6</sup> Other defendants raised similar affirmative defenses, arguing that there were procompetitive justifications for their alleged conduct—a defense which would only apply to a rule-of-reason theory and not to a *per se* illegal price fixing theory.<sup>7</sup>

**Expert Discovery.** Expert discovery then began in April 2014, and again Sharp made clear that it was pursuing a rule-of-reason theory. In his report, Sharp’s expert Dr. Jerry Hausman opined on each of the elements of a rule-of-reason violation. He opined that the relevant product market is CPTs, the relevant geographic market is at least North America, and that the defendants’ information exchanges had the anticompetitive effect of materially increasing prices for CPTs above what they would otherwise have been. Benson Decl. Ex. 4, Expert Report of Jerry A. Hausman (“Hausman Report”) ¶¶ 12, 15, 16, 24, 29, 68, Apr. 15, 2014.

Dr. Hausman also expressly stated that he was not opining on the issue of whether there was a *per se* illegal agreement. Hausman Report ¶ 24 (“I am not offering a legal opinion about whether the Defendants’ information exchanges were made pursuant to an agreement, but rather describing evidence of information exchanges and explaining the effect of those information exchanges on CPT sales in North America and elsewhere.”).

Defendants deposed Dr. Hausman twice, each time asking questions specifically related to rule-of-reason issues. During those depositions, the words “information exchange”

<sup>6</sup> Benson Decl. Ex. 2, Answer of Koninklijke Philips N.V. to Sharp Electronics Corporation and Sharp Electronics Manufacturing Company of America, Inc.’s First Am. Compl. (MDL Dkt. No. 2465) at 55-56, Mar. 26, 2014; Benson Decl. Ex. 3, Answer of Philips Electronics North America Corporation to Sharp Electronics Corporation and Sharp Electronics Manufacturing Company of America, Inc.’s First Am. Compl. at 55, Mar. 26, 2014.

<sup>7</sup> See Appendix.

were used some 163 times, in both questions and answers. Benson Decl. ¶ 3. Defendants asked Dr. Hausman if he thought information exchanges on price were *per se* anticompetitive; he said no. Benson Decl. Ex. 5, Dep. of Jerry A. Hausman (“Hausman Dep.”) 257:13-259:12, July 23, 2014. They also asked him numerous questions seeking to establish that information exchanges could have procompetitive benefits – a defense that matters only for a rule-of-reason theory.<sup>8</sup>

Defendants also asked Dr. Hausman questions about his opinions on the rule-of-reason theory’s relevant market:

Q. All right. And you say that it's your understanding that the relevant product market is the market for CPTs, correct?

A. Yes.

Q. And not the market for televisions?

A. That's correct.

Q. And in your view, a CPT and a CDT are not technologically interchangeable, correct?

A. On the demand side certainly, yes.

Q. And you also conclude that CDTs are not an economic substitute for CPTs, correct?

A. Yes.

...

Q. In your report, you define the relevant product and geographic markets, right?

A. Yes.

---

<sup>8</sup> Benson Decl. Ex. 5, Hausman Dep. 196:9-11 (“Q. Can't some information exchange be procompetitive? A. That's what I say in the report.”), 242:4-13 (“Q. So, I mean, in the real world you are assuming, I think – well, you state that there were information exchanges in Asia? A. Yes. Q. And information exchanges in North America? A. Right. Q. Or information exchanges about CPTs sold in North America, right? A. Yes.”), 264:19-24 (“Q. Okay. But it is at least possible for competitors to exchange information about what the market will do in the near future, it is possible to exchange that type of information and still have a procompetitive result, right? A. It's possible, yes.”).

1            . . .

2       Q. With respect to the product market, you say that CPTs and CDTs are in

13      [REDACTED]

14      [REDACTED].<sup>10</sup>

15       **Sharp's Second Amended Complaint and Subsequent Disclosures.** Sharp was  
16       granted leave to amend its complaint in June 2014 (MDL Dkt. No. 2612), to respond specifically  
17       to the Court's March 13, 2014 ruling regarding the Basic Transaction Agreement between non-  
18       party Sharp Corporation and Toshiba Corporation (MDL Dkt. No. 2435). Defendants once again  
19       answered with affirmative defenses specifically relevant to rule-of-reason violations.<sup>11</sup>

21       <sup>9</sup> See also Benson Decl. Ex. 5, Hausman Dep. 105:11-106:1, July 23, 2014 ("A. But as I  
22       determined in the -- in the report, the U.S. -- or at least North America is a separate market. Q. Well,  
23       you made an important distinction, though. North America would be a separate market,  
24       but yet you analyze just the U.S.?"), 242:24-243:8 ("Q. So, yeah, I think you say in Paragraph 58  
25       that you're using the time period that corresponds to what you found to be the period of  
26       information exchanges, right? A. In the U.S. . . . Q. Or relating to CPTs sold in North America.  
27       A. Yes."), 267:3-8 ("Q. So the alleged participants in the agreement had market power because  
28       their market -- their collective market share I think you said was in the nature of 85 to 90  
29       percent? A. I -- yeah, I -- but I say that in the report . . ."), 315:11-316:3 ("Q. You testified  
earlier that you had defined a North American relevant CPT market . . .").

10      [REDACTED] 014.

11      See Appendix.

1 Dr. Hausman thereafter issued additional expert reports in July and September  
 2 2014, each containing more information relevant to rule-of-reason issues.<sup>12</sup>

3 Sharp's rule-of-reason theory was also later reflected in numerous exchanges  
 4 between the parties after discovery, including the proposed verdict form the DAPs filed with the  
 5 Court in November 2014 (MDL Dkt. No. 3117), and two rounds of jury instructions and verdict  
 6 forms exchanged between the parties in January 2015, and in the draft of the pretrial order the  
 7 parties exchanged on February 6, 2015.<sup>13</sup>

## 8 ARGUMENT

### 9 I. The Defendants Have Long Been on Notice of Sharp's Rule-of-Reason Theory

10 This factual recitation makes it absolutely clear that the defendants have known  
 11 for a very long time that Sharp is prosecuting a Sherman Act claim under both *per se* and rule of  
 12 reason theories of liability. The Ninth Circuit has "repeatedly held that [a] party need not plead  
 13 specific legal theories in the complaint, so long as the other side receives notice as to what is at  
 14 issue in the case." *Edwards v. Cnty. of San Diego*, 124 F. App'x 547, 548 (9th Cir. 2005) (citing  
 15 *Sagana v. Tenorio*, 384 F.3d 731, 736-37 (9th Cir. 2004)). Courts have thus held that  
 16 interrogatory responses are appropriate vehicles to provide notice of theories underlying claims,  
 17 even where they are not otherwise contained in a complaint. *See, e.g., Planmatics, Inc. v.*  
 18 *Showers*, 137 F. Supp. 2d 616, 626 (D. Md. 2001), *aff'd*, 30 F. App'x 117 (4th Cir. 2002) ("As  
 19 Showers received the interrogatory answers setting forth these alternative theories over two years  
 20 ago, he can hardly claim surprise or prejudice by the Court's consideration of the issue."); *Nat'l*  
 21 *Sur. Corp. v. Charles Carter & Co., Inc.*, 539 F.2d 450, 458 (5th Cir. 1976) (finding claim for  
 22  
 23  
 24  
 25  
 26

---

27 <sup>12</sup> Benson Decl. Ex. 8, Supplemental Expert Report of Jerry A. Hausman; Benson Decl. Ex. 9,  
 July 3, 2014; Rebuttal Expert Report of Jerry A. Hausman, Sept. 26, 2014.

<sup>13</sup> Benson Decl. Ex. 10.

1 negligence in answers to interrogatories, although not specified in the complaint, sufficiently  
 2 placed issue before court).<sup>14</sup>

3 This is consistent with the guidance of the Supreme Court on the significant  
 4 function of discovery versus the limited function of complaints in federal litigation. That Court  
 5 has explained that the Federal Rules of Civil Procedure:

6 restrict the pleadings to the task of general notice-giving and invest the  
 7 deposition-discovery process with a vital role in the preparation for trial.  
 8 The various instruments of discovery now serve (1) as a device, along  
 9 with the pre-trial hearing under Rule 16, to narrow and clarify the basic  
 10 issues between the parties; and (2) as a device for ascertaining the facts, or  
 information as to the existence or whereabouts of facts, relative to those  
 issues.

11 *Hickman v. Taylor*, 329 U.S. 495, 501 (1947).

12 As noted above, Sharp made clear from the time it filed its very first complaint  
 13 that among the anticompetitive conduct it alleged was the exchange of highly sensitive  
 14 commercial information. As defendants well know, such conduct can be analyzed under both a  
 15 *per se* or a rule-of-reason theory.

16 If there was any doubt that Sharp intended to pursue both a *per se* and rule-of-  
 17 reason theory, it was eliminated entirely when Sharp served its February 2014 interrogatory  
 18 answers. Those interrogatory responses unambiguously stated that Sharp maintained that  
 19 defendants conspired “to fix, raise, maintain and stabilize the price at which CRTs were sold in  
 20 the United States, constituting a *per se* violation of antitrust law, ***and/or to exchange***  
 21 ***competitively sensitive information which caused prices for CRTs sold in the United States to***

---

24       14 Courts have also found oppositions to motions for summary judgment or other non-pleadings  
 25 sufficient to put defendants on notice of plaintiff’s theories. *Foster Med. Corp. Emps.’ Pension*  
*Plan v. Healthco, Inc.*, 753 F.2d 194, 197 (1st Cir. 1985) (“[C]onsidering that the claim was  
 26 explicitly raised in plaintiff’s opposition papers, defendants can scarcely claim surprise or  
 prejudice.”); *Kinesoft Dev. Corp. v. Softbank Holdings Inc.*, 139 F. Supp. 2d 869, 896 n.11 (N.D.  
 27 Ill. 2001) (holding that final pretrial order setting forth a theory “controls even if this theory was  
 missing from the complaint”).

1           *be at anticompetitive levels, constituting a violation of antitrust law under a rule of reason*  
 2           *analysis.*<sup>15</sup>

3           Sharp did not hide its light under a bushel. It made repeated reference to this  
 4 specific interrogatory response (directly or by incorporation) or to its rule-of-reason allegations  
 5 throughout the discovery period in other timely responses, which it served on every defendant  
 6 and which were never the subject of challenge. These references include:

- 7           • Response Nos. 2, 4, 6, and 9 of Sharp's Responses to **Thomson's** First Set of  
           Interrogatories (July 10, 2014);
- 8           • Response Nos. 17, 18, 19, 20, 22 of Sharp's Responses to **MTPD** and **LGE's**  
           Second Set of Interrogatories (July 28, 2014);
- 9           • Response Nos. 1 and 4 of Sharp's Responses to **Hitachi America's** First Set of  
           Interrogatories (Aug. 4, 2014);
- 10          • Response No. 1 of Sharp's Responses to **Hitachi Displays's** First Set of  
           Interrogatories (Aug. 4, 2014);
- 11          • Response No. 15 of Sharp's Responses to **HEDUS's** Second Set of  
           Interrogatories (Aug. 4, 2014);
- 12          • Response No. 1 of Sharp's Responses to **Hitachi, Ltd.'s** First Set of  
           Interrogatories (Aug. 4, 2014);
- 13          • Response No. 1 of Sharp's Responses to **LGEUSA's** First Set of Interrogatories  
           (Aug. 21, 2014);
- 14          • Response No. 1 of Sharp's Responses to **PNA's** First Set of Interrogatories (Aug.  
           21, 2014);
- 15          • Response Nos. 6-17 of Sharp's Responses to **KPNV's** First Set of Interrogatories  
           (Aug. 25, 2014);
- 16          • Response Nos. 1-11 of Sharp's Responses to **TAIS's** First Set of Interrogatories  
           (Sept. 5, 2014);
- 17          • Second Supplemental Response No. 3 of Sharp's Responses to **SDIA's** First Set  
           of Interrogatories (Sept. 5, 2014);

27  
 15       See *supra* n.2.

- Response Nos. 1-6 of Sharp's Responses to **Tianjin SDI**'s Interrogatories (Sept. 4, 2014);
- Response Nos. 4, 5, 6, 7, 8, and 9 of Sharp's Responses to **Thomson SA**'s Second Set of Interrogatories (Sept. 5, 2014); and
- Response Nos. 12-17 and 19-25 of Sharp's Responses to **PENAC**'s First Set of Interrogatories at 88 (Sept. 5, 2014).<sup>16</sup>

Sharp also served its opening expert report in April 2014, which, as defendants describe, “examines anticompetitive effects of information exchanges under a rule-of-reason analysis.”<sup>17</sup> (As noted below, Dr. Hausman’s expert report is also relevant to a *per se* case.) Defendants suggest that, after Dr. Hausman served his report, Sharp filed a Second Amended Complaint that did not use magic words relating to a rule-of-reason theory and therefore, even if Dr. Hausman’s report had given them notice of Sharp’s intent to pursue a rule-of-reason theory, the Second Amended Complaint somehow erased it. This is nonsense. Sharp took no action whatsoever to suggest that it was retracting the detailed factual and economic contentions set forth in its interrogatory answers and the expert reports of Dr. Jerry Hausman. No one could have reasonably inferred that Sharp was not pursuing a rule-of-reason theory after Sharp had specifically set forth the factual and economic support for those claims in appropriate discovery responses and expert reports (and then referred back to those responses in subsequent discovery responses). Defendants also ignore that Dr. Hausman served a supplemental expert report on

<sup>16</sup> See Benson Decl. Exs. 11-24. Defendants incorrectly suggest that Sharp’s discovery responses should be considered to apply only to a subset of defendants because Sharp’s initial response was to an interrogatory propounded by two specific defendants. Defs.’ Motion in Limine No. 9 at 13-14. Even if the interrogatory had not been incorporated by reference into each of those referenced above, defendants’ argument would still be incorrect. The discovery protocol in this case orders parties to eliminate duplicative discovery and provides that discovery by and to a party in this case must be served by and against all parties. (See Order re Discovery and Case Management Protocol (MDL Dkt. No. 1128) at 14-16 (“All CRT Plaintiffs’ counsel and Defendants’ counsel shall engage in their best efforts to conduct discovery efficiently and without duplication . . . Any discovery requests [and responses] . . . shall be served on [counsel] for each defendant.”).)

<sup>17</sup> Defendants' Motion in Limine No. 9, at 15.

1 July 3, 2014, nearly a month after the Second Amended Complaint was filed, that also contained  
 2 information on issues like relevant product markets that are uniquely relevant to a rule-of-reason  
 3 theory. *See Benson Decl. Ex. 8, Supplemental Expert Report of Jerry A. Hausman, July 3, 2014.*  
 4 They also ignore that they responded to the Second Amended Complaint with affirmative  
 5 defenses relevant only to rule-of-reason violations, demonstrating that they knew such a theory  
 6 was continuing to be asserted and never moved to dismiss it nor subsequently moved for  
 7 summary judgment, even after numerous disclosures about the theory.<sup>18</sup>  
 8

9 As noted above, Sharp again referenced its rule-of-reason theory in the proposed  
 10 verdict form the plaintiffs filed with the Court on November 17, 2014 (MDL Dkt. No. 3117), in  
 11 draft jury instructions and verdict forms the parties exchanged on January 9, 2015 and January  
 12 26, 2015, and in a draft of the pretrial order the plaintiffs exchanged with defendants on February  
 13 6, 2015.<sup>19</sup> (Had the Court not recently moved the dates for pretrial filings, that pretrial order  
 14 would also have now been filed with the Court.)  
 15

16 In short, Sharp again and again brought its rule-of-reason theory to defendants'  
 17 attention and defendants took discovery on that theory and responded to it in pleadings and their  
 18 own expert report.<sup>20</sup>  
 19

---

20<sup>18</sup> *See Appendix; see also Henderson v. Peterson*, No. C 07-2838, 2011 WL 2838169, at \*11  
 21 (N.D. Cal. July 15, 2011) (motions in limine should not be used to litigate substantive issues);  
*Chopourian v. Catholic Healthcare W.*, No. S-09-2972, 2011 WL 6396500, at \*13 (E.D. Cal.  
 22 Dec. 20, 2011) (same); *Peri & Sons Farms, Inc. v. Jain Irrigation, Inc.*, No. 3:11-cv-00757-VPC,  
 23 2013 WL 432614, at \*2 (D. Nev. Feb. 4, 2013) (same). A “motion in limine should not be used  
 24 to prevent a party from pursuing the theories supporting its causes of action.” *See Chopourian*,  
 2011 WL 6396500, at \*14; *see also Mindlab Media, LLC v. LWRC Int’l, LLC*, No. CV 11-3405-  
 25 CAS, 2013 WL 1688309, at \*4 (C.D. Cal. Apr. 15, 2013).

26<sup>19</sup> *See Patterson v. Hughes Aircraft Co.*, 11 F.3d 948, 950 (9th Cir. 1993) (“A pretrial order  
 generally supersedes the pleadings, and the parties are bound by its contents.”); *Kinesoft Dev.  
 Corp.*, 139 F. Supp. 2d at 896 n.11 (“The Final Pretrial Order sets forth this revised repudiation  
 theory . . . which controls even if this theory was missing from the complaint.”).

27<sup>20</sup> Defendants also argue that Sharp’s evidence related to a rule-of-reason theory should be  
 excluded because it is unfairly prejudicial under Rule 403. Defs.’ Mot. *in Limine* No. 15 at 5.

1           **II. Courts Do Not Require Complaints to be Amended in These Circumstances**

2           Defendants' argument that Sharp did not specifically amend its complaint to state  
 3 a rule-of-reason theory is a red herring; the law requires no such thing where, as here, defendants  
 4 were unquestionably on notice of Sharp's rule-of-reason theory.

5           Unsurprisingly, none of the cases that defendants cite bear any resemblance to the  
 6 facts here. In *Dream Games of Arizona, Inc. v. PC Onsite*, 561 F.3d 983 (9th Cir. 2009), the  
 7 court of appeals affirmed a conclusion that a plaintiff had not put a defendant on notice of its  
 8 "secondary liability" theory where, unlike here, the theory was raised for the first time in a post-  
 9 trial JMOL motion, and the plaintiff had not asserted that theory in a complaint, in submitted jury  
 10 instructions, in a pretrial order, or raised its theory at trial. *Id.* at 995. Similarly, *United States v.*  
 11 *General Electric Co.*, 869 F. Supp. 1285 (S.D. Ohio 1994), is inapposite because, unlike here,  
 12 the government had not suggested it intended to pursue an "information exchange" theory until  
 13 *after trial* in opposing a Rule 29 motion for acquittal, and had, in fact, opposed the defendant's  
 14 request for a rule-of-reason instruction at trial. *Id.* at 1300-01 & n.32. *Texaco* is inapt because,  
 15 unlike here, the plaintiffs there expressly waived and disclaimed any reliance on a rule-of-reason  
 16 theory before the district court. *Texaco Inc. v. Dagher*, 547 U.S. 1, 7 n.2 (2006).<sup>21</sup>

17           Other cases defendants cite have nothing to do with the ability to put on evidence  
 18 at a trial after numerous clear disclosures in discovery, because they are under Rule 12, where  
 19 the analysis is necessarily restricted to the four corners of a complaint. *See, e.g., Howard Hess*  
 20 *Dental Labs. Inc. v. Dentsply Int'l, Inc.*, 602 F.3d 237, 257 (3d Cir. 2010); *Pierson v. Orlando*

21 This Rule 403 argument depends entirely on defendants' contention that defendants were not on notice of Sharp's rule-of-reason theory, which fails for all the reasons described herein.

22           The prior history of *Texaco Inc. v. Dagher* makes this clear. *See Dagher v. Saudi Ref. Inc.*,  
 23 369 F.3d 1108, 1113 (9th Cir. 2004) ("The plaintiffs disclaimed any reliance on the traditional  
 24 'rule of reason' test, instead resting their entire claim on either the per se test or a 'quick look'  
 25 theory of liability."); *Dagher v. Saudi Ref. Inc.*, No. CV 99-6114-GHK(JWJX), 2002 WL  
 26 34099815, at \*1 (C.D. Cal. Aug. 13, 2002) (noting that "Plaintiffs waived any reliance on the  
 27 rule of reason").

1       *Reg'l Healthcare Sys., Inc.*, 619 F. Supp. 2d 1260, 1274 (M.D. Fla. 2009) (distinguishable also  
 2 because, unlike here, plaintiffs alleged Sherman Act §1 and §2 violations in the same claim);  
 3 *Banxcorp v. Bankrate Inc.*, No. 07-3398, 2011 WL 6934836, at \*4 (D.N.J. Dec. 30, 2011)  
 4 (distinguishable also because, unlike here, plaintiffs there specifically asked the court to find that  
 5 the claims at issue were “*per se* violations of § 1”).

6              Even under a straight Rule 12 analysis, no case defendants cite suggests that a  
 7 plaintiff *must* include the magic words “rule of reason” in a complaint, or allege it in a specific  
 8 claim, in order to pursue a rule-of-reason theory of liability under Section 1 of the Sherman Act.  
 9 Such a burden would be contrary to the general rule that plaintiffs plead facts supporting a claim,  
 10 not legal theories. *See Bonds v. Nicoletti Oil Inc.*, No. CV-F-07-1600, 2008 WL 281532, at \*13  
 11 (E.D. Cal. Jan. 30, 2008) (“[P]leadings need not state with precision all of the elements that are  
 12 necessary to give rise to a legal basis for recovery as long as fair notice of the nature of the action  
 13 is provided to the opposing party.”).

14              Allegations for a rule-of-reason theory must “plausibly suggest the contours of the  
 15 relevant geographic and product markets.” *Jacobs v. Tempur-Pedic Int'l, Inc.*, 626 F.3d 1327,  
 16 1336 (11th Cir. 2010). Because “[t]here is no requirement that [relevant markets] be pled with  
 17 specificity . . . [a]n antitrust complaint . . . survives a Rule 12(b)(6) motion unless it is apparent  
 18 from the face of the complaint that the alleged market suffers a fatal legal defect.” *Newcal  
 19 Indus., Inc. v. Ikon Office Solution*, 513 F.3d 1038, 1045 (9th Cir. Cir. 2008) (citation omitted)  
 20 (internal quotation marks omitted). Sharp’s markets here do not suffer from any fatal legal  
 21 defects, and Sharp’s allegations are therefore distinguishable from those in the *Big Bear* and  
 22 *Tanaka* cases defendants cite.

23              Lastly, defendants cite two cases to suggest, as a blanket matter, that discovery is  
 24 insufficient to put a defendant on notice of a legal theory, but neither supports that position.

1        *Pena v. Taylor Farms Pacific, Inc.*, No. 13-cv-01282, 2014 WL 1330754 (E.D. Cal. Mar. 28,  
 2        2014), stands only for the proposition that it was improper to raise an argument on “new factual  
 3        bases” at the summary judgment stage, *where it was not previously disclosed before the end of*  
 4        *discovery*. *Id.* at \*4. Sharp’s theory here was disclosed before the end of discovery. In *Bassani*  
 5        *v. Sutton*, No. 08-3012, 2010 WL 1734857 (E.D. Wash. Apr. 28, 2010), interrogatory responses  
 6        were held insufficient to put defendants on notice of a claim only where, unlike here, they were  
 7        “vague and conclusory.” *Id.* at \*5. Sharp’s interrogatory responses were, to the contrary,  
 8        detailed and thorough as to every element of a rule-of-reason theory.<sup>22</sup>

10        **III. Dr. Hausman’s Opinions Also Support a Per Se Claim Under Section 1 Of The  
 Sherman Act**

11              Everything discussed above supports denying defendants’ Motions *in Limine* No.  
 12              9 and No. 15. But there is also another, independent reason to deny defendants’ Motion No. 9,  
 13              seeking to exclude Dr. Hausman’s testimony: Dr. Hausman’s opinions are relevant to a Section  
 14              1 claim under *either* a rule-of-reason theory, or a *per se* theory. Courts recognize that  
 15              information exchanges are not exclusively used to assert rule-of-reason-based theories of  
 16              antitrust violations. The very cases defendants cite show that information exchanges can be used  
 17              to establish a *per se* antitrust violation by indicating the existence of an express or tacit  
 18              agreement to fix or stabilize prices.<sup>23</sup> See *In re Coordinated Pretrial Proceedings in Petroleum*

---

21        <sup>22</sup> Defendants also suggest in passing that Sharp should be prohibited from introducing  
 22        evidence related to information exchanges pertaining to CDTs or to markets outside North  
 23        America, “because Sharp is only alleging a conspiracy to fix prices of CPTs in North America.”  
 24        Defs.’ Mot. *in Limine* No. 15 at 2. Evidence pertaining to CDTs is relevant to Sharp’s case, for  
 25        all the reasons Sharp explains in its brief in opposition to the Defendants’ Motion *in Limine* No.  
 26        10. Evidence of information exchanges in markets outside of North America is relevant, too, for  
 27        all the reasons explained by Dr. Hausman and by Sharp’s witnesses in discovery – because Asian  
             and European CRT prices affected CRT prices in the U.S. Benson Decl. Ex. 5, Hausman Dep. at  
             108:4-109:7; Benson Decl. Ex. 25, Dep. of Toshihito Nakanishi at 357:6-358:20, July 30, 2014.

21        <sup>23</sup> Defendants are also wrong in suggesting that only exchanges of information about price can  
 22        provide evidence supporting a *per se* price-fixing claim. Defs.’ Mot. *in Limine* No. 15 at 2.  
 23        Information exchange about topics other than price has been found relevant in *per se* cases to the

1       *Prods. Antitrust Litig.*, 906 F.2d 432, 447 n.13 (9th Cir. 1990); *see also United States v.*  
 2       *Container Corp.*, 393 U.S. 333, 336-37 (1969) (informal agreement to provide price information  
 3       may, under appropriate market conditions, constitute circumstantial evidence of an agreement to  
 4       stabilize prices); Defs.’ Mot. *in Limine* No. 9 at 2 (“[I]nformation exchanges may be  
 5       circumstantial evidence to support a claim of horizontal price-fixing, which is analyzed under the  
 6       *per se* standard.”).<sup>24</sup> Defendants’ expert agrees as well, stating in his deposition that “when  
 7       you’re calculating overcharges . . . whether it is judged to be a violation of the antitrust laws  
 8       under the rule of reason, a violation of the antitrust law as a *per se* offense, it wouldn’t alter the  
 9       calculation [one] would do.” Benson Decl. Ex. 7, Carlton Dep. 331:22-332:2.

11                  Dr. Hausman examined Sharp’s CRT prices during the *time period* that the  
 12       evidence shows defendants were engaging in information exchanges, and sought to quantify how  
 13       much Sharp was overcharged on the CRTs it purchased as a result of the conduct; he makes clear  
 14       that the question of the intent of those exchanges or whether they reflect agreements is a separate  
 15       question to be decided by the Court or jury. Benson Decl. Ex. 4, Expert Report of Jerry A.  
 16       Hausman ¶ 24; Benson Decl. Ex. 5, Hausman Dep. 112:5-10, 289:2-15, July 23, 2014. As such,  
 17       and contrary to defendants’ arguments, it is irrelevant to his damages calculation whether the  
 18       theory is one of a *per se* violation or a rule-of-reason violation.<sup>25</sup>

20  
 21  
 22

---

 23       defendants’ ability to effect the price-fixing conspiracy. *In re Flash Memory Antitrust Litig.*, 643  
 24       F. Supp. 2d 1133, 1144 (N.D. Cal. 2009) (exchange of “highly sensitive competitive information,  
 25       including pricing and production data” allowed defendants “to facilitate and monitor their  
 26       alleged price fixing conspiracy”).

27       <sup>24</sup> *See also* Defs.’ Motion *in Limine* No. 9 at 6 (quoting *Todd v. Exxon Corp.*, 275 F.3d 191, 198  
 28       (2d Cir. 2001)).

29       <sup>25</sup> Except for Dr. Hausman’s opinion, defendants have not identified specific evidence relating  
 30       to the rule of reason that they believe should be excluded. Indeed, much of the evidence relating  
 31       to Sharp’s rule-of-reason theory is also relevant to a *per se* theory and other direct action  
 32       plaintiffs’ claims, and defendants have not moved against any other DAPs in this motion.

## **CONCLUSION**

For the foregoing reasons, Sharp respectfully requests that the Court deny defendants' Motions *in Limine* Nos. 9 and 15.

**APPENDIX**

**ADDITIONAL AFFIRMATIVE DEFENSES SPECIFIC TO RULE-OF-REASON  
VIOLATIONS**

**Answers to Sharp's First Amended Complaint**

- MTPD's Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2498) at 48, Mar. 27, 2014 (conduct was "reasonable and based on independent, legitimate business and economic justification");
- Panasonic Corp.'s Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2499) at 48, Mar. 27, 2014 (same);
- Panasonic Corp. of North America's Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2500) at 48, Mar. 27, 2014 (same);
- Hitachi Defs.' Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2484) at 51, Mar. 27, 2014 (arguing that Hitachi Defendants' actions were "lawful, justified, pro-competitive, constitute bona fide business competition, and were carried out in furtherance of" legitimate business interests);
- Samsung SDI's Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2497) at 43-44, 48, Mar. 27, 2014 (arguing that Samsung SDI's actions were pro-competitive and that SDI lacked power in a legally cognizable relevant market);
- Thomson Consumer's Answer to Sharp's First Am. Compl. (Sharp Dkt. No. 115) at 12, Apr. 25, 2014 (arguing that Thomson Consumer's actions were "lawful, justified, pro-competitive, constitute bona fide business competition, and were carried out in furtherance of" legitimate business interests);
- Thomson SA's Answer to Sharp's First Am. Compl. (Sharp Dkt. No. 114) at 12, Apr. 25, 2014 (same); and
- Technologies Displays Americas, LLC's Answer to Sharp's First Am. Compl. (MDL Dkt. No. 2580) at 5, May 23, 2014 ("TDA's actions or conduct were undertaken for legitimate business reasons, did not unreasonably restrain competition, and were not the product of any contract, combination or conspiracy with any other person or entity.").

**Answers to Sharp's Second Amended Complaint**

- MTPD's Answer to Sharp's Second Am. Compl. (MDL Dkt. No. 2661) at 42, June 30, 2014 (conduct was "reasonable and based on independent, legitimate business and economic justification");
- Panasonic Corp.'s Answer to Sharp's Second Am. Compl. (MDL Dkt. No. 2660) at 42, June 30, 2014 (same);
- Panasonic Corp. of North America's Answer to Sharp's Second Am. Compl. (MDL Dkt. No. 2659) at 42, June 30, 2014 (same);
- Toshiba Corp.'s Answer to Sharp's Second Am. Compl. (MDL Dkt. No. 2662) at 57, June 30, 2014 (conduct was "in furtherance of legitimate business interests" and "did not unreasonably restrain competition");

- 1     • Toshiba America Electronic Components, Inc.’s Answer to Sharp’s Second Am. Compl. (MDL Dkt. No. 2663) at 53, June 30, 2014 (same);
- 2     • Toshiba America Information Systems Inc.’s Answer to Sharp’s Second Am. Compl. (MDL Dkt. No. 2664) at 53, June 30, 2014 (same);
- 3     • Toshiba America, Inc.’s Answer to Sharp’s Second Am. Compl. (MDL Dkt. No. 2665) at 4 53, June 30, 2014 (same);
- 5     • Stipulation and Order Regarding Sharp’s Second Am. Compl. as to Samsung SDI, 6 Hitachi Defs., and LGE Defs. (MDL Dkt. No. 2648) at 1, June 25, 2014 (stipulating that 7 the undersigned defendants’ “answers to the First Amended Complaint shall be deemed 8 their answers to the Second Amended Complaint”);
